The “TOPS” program is a 1-day class instructed by Quality Service Contractors (QSC) Business Coach, John O’Connor. “TOPS” is a training session designed for service providers to help them understand and develop specific activities and “attitudes” that will improve their level of professionalism before, during, and after their time spent with your customers.

The two technicians I sent to the TOPS training program both came back to work with a renewed excitement for customer service. Both technicians loved how motivating the speaker was. One felt he was able to use some of what he learned the very next day. As a business owner, I felt the training was worth every penny of investment by having technicians that provide a higher level of enthusiastic service that our customers deserve.
*Thank you and keep the training coming,
